filename:comptia-secplussy0601-4-11-1-network-security-segmentation

Showname: Security+ (SY0-601)

Topic: Network Security

Episode: Segmentation

Learner Objectives:

Given a scenario, implement secure network designs.

Description:In this episode, the viewer will identify the purpose of network segmentation through virutal local area networks (VLANS), perimeter networks commonly called DMZs as well as intranets and extranets.

- Network segmentation (**two slides**)
- DMZs
- Virtual local area network (VLAN)
- Intranets
- Extranets
- East-west traffic and Zero Trust
